Zones of Regulation

At Didsbury CE, we have introduced the Zones of Regulation from Nursery all the way through to Y6. The Zones of Regulation is a research-based framework that builds emotional and behavioural regulation skills. There are four coloured zones which represent feelings, energy and emotions. It is important to remember that there are **no bad zones**! Pupils learn to label their emotions and identify strategies that help them to regulate. You can read more about it by following the link below or by asking your child's class teacher.
